

Grange Bacstel-IP systems for IBM iSeries and Windows

This page contains the latest versions of the *Windows* component main programs for the Grange Bacstel-IP system.

Download the relevant zip file to a temporary location then install as per the instructions for your system.

Bacstel-IP for Windows

Determine the folder where the Bacstel main program GRBacstelIP.exe is called from. The properties of the desktop icon to load the program will tell you its location.

Rename the program GRBacstelIP.exe to something like GRBacstelIP.exe.save

Unzip GRBacstelIP.zip into the Bacstel folder determined above.

Start the program. The version should display as 2.1.0.18

Bacstel-IP for IBM iSeries

The Windows folder for the Bacstel system Windows components is normally c:\GRBACSIP1

Rename the program gr_svr.exe to something like gr_svr.exe.save

Unzip gr_svr.zip into the Bacstel folder determined above.

Start the program. The version should display as 2.1.1.13
